VOLUME CVI.---NO. 114. ALEXANDRIA, VA., MONDAY EVENING, MAY 15, 1905. PRICE 2 CENTS.

DO YOU FEEL THIS WAY.

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your sluggish liver to work. It will get into every vein in your body and purify your blood. It will set things right in your stomach, and your appetite will come back. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about speedy cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose *advice is given free* to all who wish to write him. His great success has come from his wide experience and varied practice.

O. S. Copenhaver, Esq., of Mount Union, Huntingdon Co., Pa. (Box 222), writes: "About twelve years ago I was suddenly taken with a pain in the pit of the stomach which was so violent I could not walk straight. It would grow more severe until it caused waterbrash and vomiting of a slimy yellow water. A physician told me I had a form of dyspepsia and treated me for about six months with but little benefit. Another physician told me my liver was out of order and that I had indigestion. He gave me a treatment and I got some better but only for a short time. I then tried another one, who said I had chronic indigestion, ulceration of the lining of the stomach, torpid liver and kidney affection. He treated me for more than a year and I felt much better, but it did not last. I then took to using several widely advertised patent medicines, but received no more than temporary relief. I then tried Dr. Pierce's medicines, using his 'Golden Medical Discovery,' and the 'Pleasant Pellets,' and in two months' time I was feeling better than I had for years before."

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere, —seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit Mich.

E. S. Leadbeater & Sons, Special Agents.

WEAK HEARTS

are caused by Indigestion. If you eat a little too much, or if you are subject to attacks of Indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart.

Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.

Kodol

Dyspepsia Cure

digests what you eat, takes the strain off of the heart, and contributes nourishment, strength and health to every organ of the body. Cures Indigestion, Dyspepsia, Sour Stomach, Inflammation of the mucous membranes lining the Stomach and Digestive Tract, Nervous Dyspepsia and Catarrh of the Stomach.

After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I get a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

MRS. LORING NICHOLS, Penn Yan, N. Y.

I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.

A BOGUS QUEEN.

A woman who claimed to be Carlotta, the wife of Maximilian, former Emperor of Mexico and brother of Francis Joseph, present Emperor of Austria, has, according to the Boston Herald, left that city after securing some $40,000 from members of the Italian colony on the pretense that she was rightful claimant of the Austrian throne.

"She is," the Herald says, "being sought by over 100 residents of the north end district, who for almost eight years have been paying her money to enable her, as they supposed, to gain possession of the Austrian throne, upon which event taking place she promised that those who helped her would be ministers and nobles and be given vast estates. One woman, the wife of a prominent Italian, gave her $3,000 on the strength of the promise that she should be made a duchess. An organ grinder contributed a few hundred dollars, all his savings, on the understanding that he should be made court musician. Others contributed tens and hundreds on similar assurances.

"Many Italian residents secretly visited her at her royal headquarters, a handsomely furnished room in a dwelling house on the corner of two South End streets, where the pseudo-queen sat on an imposing throne, resplendent in red cloth and and tinsel, and graciously allowed them to kiss her hand on the occasions on which they brought her tributes of money. At each side of the throne stood couriers and a bodyguard who clanked stage arms.

"Mysterious secrets such as would overthrow the present Austrian ruler were credited to this woman. When she appeared in Boston eight years ago, it was whispered among the few in the North End that Carlotta, sister-in-law of Emperor Francis Joseph, was in Boston in disguise, having escaped from Brussels, where she had for many years been confined in an asylum.

"Italians are fairly familiar with Austrian history and when they were told that Carlotta had come to Boston to collect a few faithful followers on whom she could rely, and enough money to return to Austria and use in connection with her all powerful secrets, and that those who aided her would bask, when she gained the throne, in her royal favor, they believed their fortunes were made.

"Charlotta's aids in this vast enterprise were a number of select and dashing young men of various nationalities, among whom was one, Moriarity, who represented himself to be the crown prince Rudolph, the eldest son of Emperor Joseph, who in January, 1889, shot himself.

"Recently the Italians were getting rather suspicious and began to hint openly that Carlotta and the henchmen were delaying matters. Recent visits to the throne soon disclosed that the woman had left."

Mysterious Figure of a Woman.

The mysterious figure of a woman bearing a striking resemblance to the pictures of the Virgin Mary, and believed by many to be an apparition, has been appearing nightly in the center of a circle of light high up on the side wall of the house of Thomas Morris, on Hicks street, near the corner of Morris in Philadelphia. During the last three nights upward of 3,000 persons, from all parts of the city, among them the ailing and crippled, who came with the hope of being cured, assembled to watch the strange object. The credulous devout mumbled prayers. The incredulous giggled and laughed. But none was over boisterous. Spiritualists declared it to be a genuine shade and the practical denounced it as a trick. But all agreed on the strong and unmistakable likeness to the Virgin. The police have endeavored to keep the matter quiet so as not to augment the crowds and attendant excitement. On Friday night the throng was so great that six policemen were sent out to disperse the crowds, which trailed out into Morris street blocking the trolley cars. Fearing that his store windows would be crushed in, Samuel McFaul, who keeps a grocery store on the corner, was obliged to close the store.

Billion in Church Treasures.

The Minister of Worship, M. Bienvenu Martin, recently sent a circular letter to all the prefects of the French provinces, ordering that an inventory of all the precious works of arts in possession of the French churches be carefully made. The returns obtained were simply amazing, as they show that the artistic patrimony of the church in France is valued at $800,000,000 not including the statuary, altars, architectural ornaments and stained glass windows, which would make the total value more than $1,000,000,000.

One of the most precious church treasures in France is that called the treasure of Conques, in the Department of Aveyron, which was on view at the exhibition of 1900 and which inculdes the most precious enamels, reliquaries of great antiquity, sold silver and gold statues.

If it had not been that the National Assembly in 1791 had ordered the melting of many similar precious objects of art, the value of church treasures in France at the present day would be almost double. As it is the case in Italy, all artistic articles in France will remain the ipaliensable property of the State.

FROM GIRLHOOD TO WOMANHOOD

Mothers Should Watch the Development of Their Daughters—Interesting Experiences of Misses Borman and Mills.

Every mother possesses information which is of vital interest to her young daughter.

Too often this is never imparted or is withheld until serious harm has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' over-sensitiveness and modesty often puzzle their mothers and baffle physicians, as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pains in back or lower limbs, eyes dim, desire for solitude; when she is a mystery to herself and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change, and start the menstrual period in a young girl's life without pain or irregularities.

Hundreds of letters from young girls and from mothers, expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them, have been received by the Lydia E. Pinkham Medicine Co., at Lynn, Mass.

Miss Mills has written the two following letters to Mrs. Pinkham, which will be read with interest:

Dear Mrs. Pinkham:— (First Letter.)

"I am but fifteen years of age, am depressed, have dizzy spells, chills, headache and backache, and as I have heard that you can give helpful advice to girls in my condition, I am writing you."—Myrtle Mills, Oquawka, Ill.

Dear Mrs. Pinkham:— (Second Letter.)

"It is with the feeling of utmost gratitude that I write to you to tell you what your valuable medicine has done for me. When I wrote you in regard to my condition I had consulted several doctors, but they failed to understand my case and I did not receive any benefit from their treatment. I followed your advice, and took Lydia E. Pinkham's Vegetable Compound and am now healthy and well, and all the distressing symptoms which I had at that time have disappeared."—Myrtle Mills, Oquawka, Ill.

Miss Matilda Borman writes Mrs. Pinkham as follows:

Dear Mrs. Pinkham:—

"Before taking Lydia E. Pinkham's Vegetable Compound my monthlies were irregular and painful, and I always had such dreadful headaches.

"But since taking the Compound my headaches have entirely left me, my monthlies are regular, and I am getting strong and well. I am telling all my girl friends what Lydia E. Pinkham's Vegetable Compound has done for me."—Matilda Borman, Farmington, Iowa.

If you know of any young girl who is sick and needs motherly advice, ask her to address Mrs. Pinkham at Lynn, Mass., and tell her every detail of her symptoms, and to keep nothing back. She will receive advice absolutely free, from a source that has no rival in the experience of woman's ills, and it will, if followed, put her on the right road to a strong, healthy and happy womanhood.

Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of cures of female ills of any medicine that the world has ever known. Why don't you try it?

"I Thank The Lord!"

Leadbeater & Sons' drug store; 25c.

Strictly Genuine.

Most of the patent medicine testimonials are probably genuine. The following recently appeared in the Atcheson (Kan.) Globe: "Joe Tack, a well-known engineer, running on the Missouri Pacific between Wichita and Kiowa, lately appeared in a big one, with a picture, and when he was in this office today, we asked him about it. He says he had terrific pains in his stomach, and thought he had cancer. His druggist recommended Kodol and he says it cured him. He recommended it to others who were also cured." Kodol Dyspepsia Cure digests what you eat and cures all stomach troubles. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick streets.

MONDAY EVENING, MAY 15, 1905.

THE BEEF TRUST makes bitter complaint that federal officials in Chicago have treated its officers as "common criminals," leaving it to be inferred that they would not object if treated as high-class criminals and entirely ignoring the treatment of the masses which almost amounts to highway robbery on the part of the trust. Vigorous protest against the manner in which U. S. District Attorney Morrison is conducting the investigation into the beef industries is to be made to President Roosevelt at Washington by representatives of four of the leading packing companies, who are now at the capital and who have made arrangements to meet the President. The protestants declare: "That packing house witnesses have been bullied before the grand jury. That cheap detective methods have been used by the secret service men to secure information for the grand jury. That the general treatment of the packers in Chicago by the federal officials has been like that accorded by the police toward common criminals." Many of the trusts are bold and arrogant until they are brought to the bar of justice and there they become whining supplicants for "fair treatment."

THE DIPLOMATIC world passed through another period of anxiety last week on account of the strained relations between France and Japan incident to the harboring by the former of the Russian fleet. Although dispatches from London and the continent of Europe are to the effect that the situation has improved, there is much to cause the belief that it has not, and that serious trouble is yet to result. Dispatches today show that the Russian admiral is still violating neutrality laws by entering waters governed by the French, while the latter wait to be prodded before they will order the ships to move on. Japan is naturally incensed, and should the practice be continued she will demand aid from her ally (England). Time can only show what is to be the outcome of the war started by Japan over a year ago. The peace of the world will be menaced as long as it lasts.

THE RICHMOND city democratic committee has amended the plan under which the election will be held in that city so as to provide that each person taking part shall pledge himself to hereafter support the nominees of the party—city, State and national. This will bind each voter to support the nominee of the party for the presidency in 1908, no matter who he may be. This is rather a drastic action and will probably prevent many from taking part in the coming primary. It is all right and proper to bind those taking part in a primary to support the nominees of that primary, but it is something else to bind men in 1905 as to what they shall do in 1908. Sufficient unto the year is the binding thereto.

DISPATCHES from Manila state that fierce fighting has been going on the last two weeks on the island of Jolo between the Moro chief, Pala, with 600 well-armed followers, and troops under the personal command of Maj. Gen. Leonard Wood. Pala's losses thus far are reported at 300, while those of Gen. Wood are seven killed and nineteen wounded. Pala and his remaining followers, in accordance with Moro tradition, prefer death to capture. Similar dispatches have been received from Manila since the Spanish war began, though the people of this country are officially informed about twelve times each year that the war in the Philippines is over.

SECRETARY SHAW seems to have undertaken to shelve the republican policy of reciprocity in trade. If he is to be believed we shall hear no more of the "twins" of protection and reciprocity in republican national platforms. He told the delegates to the International Railway Congress on Saturday night that with "a few and unimportant exceptions" this government gives no preferences in commerce "to any country or people." Since the essential feature of reciprocity consists in preferences or "tips" in trade, this may be regarded as a distinct repudiation of the policy, so far at least as the Roosevelt administration is concerned.

IT TURNS out that the stockholders of the Pennsylvania Railroad have subscribed only 10 per cent. of the new bond issue. The bonds were offered at par, convertible into stock at 150. The underwriting syndicate, headed by J. P. Morgan & Co. and Kuhn, Loeb & Co., will now be called on to finance the remainder of the issue. This would indicate that the growing belief that the Pennsylvania is "overloaded" is being shared by the stockholders of that road.

The eruption of Mount Vesuvius is more active. There have been heavy explosions, and the quantity of lava emitted produces a magnificent spectacle at night.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, D. C., May 15.

George A. Post, chairman of the railway appliance exhibit of the International Railway Congress, pointedly snubbed the secretary to the President because Mr. Loeb declined to permit Mr. Post and his assistants to see Mr. Roosevelt when they called at the White House to urge the President to visit the exhibit Friday afternoon. The display was held over a day for the return of Mr. Roosevelt, but Mr. Loeb took the position that the President was too busy. Mr. Loeb called up Mr. Post on the telephone Saturday morning. Mr. Post sent back word by the messenger: "Say to Mr. Loeb that I am at breakfast. If he wishes to call me up in half an hour I will talk with him."

Secretary Paul Morton will virtually sever his connection with the Navy Department when the President leaves Washington for his summer vacation. After that, while Mr. Morton may retain the title of Secretary of the Navy for a few months longer, Assistant Secretary Darling will really run the Navy Department during the summer.

Admiral and Mrs. Dewey returned to Washington yesterday from New York. Apparently the Admiral has recovered from the illness, which Mrs. Dewey described as violent, and which prevented him from fighting the battle of Manila Bay over again at the dinner of the Founders and Patriots of America on Saturday evening. No physician attended the Admiral during the illness. It was rumored that the cause of the Admiral's "illness" was that Mrs. Dewey was greatly perturbed because her name was omitted from the list of guests at the dinner, and that she had, in a fit of pique, persuaded the Admiral to remain away.

The jury in the case of Thomas M. Field, a prominent Washington lawyer who was indicted on a charge of embezzlement of about $16,000 from the Washington Endowment and Beneficial Association, today returned a verdict of guilty. A party of sixty government officials and invited guests left Washington this morning to attend the graduating exercises of the senior class of cadets, revenue cutter service, at Arundel Cove, Maryland. A larger party of guests went from Baltimore. Arundel Cove is the Annapolis of the revenue cutter service, and after graduation the cadets are given commissions as third lieutenants. Herbert W. Bowen, recently relieved as United States Minister to Venezuela on account of charges which he is alleged to have made against First Assistant Secretary of State Loomis, formally reported to President Roosevelt this morning. He was with the President for only a moment. He was told that the matter was in the hands of Secretary Taft, and Minister Bowen at once proceeded to the War Department. On reaching the War Department Mr. Bowen was given by Secretary Taft a copy of the responses which Mr. Loomis has prepared to the charges against himself as well as a copy of all the statements that have been filed in Mr. Loomis' behalf by his friends. Among these it is understood are statements from officers of the asphalt company denying that Mr. Loomis was given a check for $10,000 in return for services rendered that company, which is the gravamen of one of the charges. Mr. Bowen was requested to examine these papers carefully and to prepare his answer thereto. When this is done he will submit his response to Secretary Taft. This together with the Loomis papers will then be laid before the President for his personal consideration. While Secretary Taft will prepare all the preliminaries in the case the President himself will make the final review and render the final decision. The impression prevails that Mr. Bowen will find it difficulty to make out his case. He has the reputation of being a fighter, however, and if he should find the case going against him it is understood that he will remove the seal of secresy from his lips and take the public into his confidence. At present, however, while he is in the midst of the controversy he absolutely refuses to discuss the case. He said this morning, however, that it would probably be two or three days before the entire case would be in the hands of the President. While Mr. Bowen disclaims having any charges against Mr. Loomis it is learned that he brought with him from Venezuela certain evidence relating to the scandalous rumors afloat in Caracas reflecting upon the Assistant Secretary of State. This evidence, it is understood is in the nature of documents. In reference to the alleged purchase of claims against the Venezuelan government by Mr. Loomis and his alleged attempts to use his official position as U. S. Minister to secure their payment at a discount.

Official orders from the Philippines contain an account of the trial by court martial of Otto B. Grim, 1st. Lieutenant in the Signal Corps, on the charge of embezzling 2,000 pesos of Philippine civil funds entrusted to him for the payment of laborers. The Postoffice Department today received the following belated telegram from Postmaster C. S. Bailey, at Snyder, Oklahoma, dated the 13th. "Cyclone destroyed town. Unroofed postoffice. Flood followed 24 hours later and ruined supplies. All rural and star routes abandoned. No building available."

Professor E. P. Ripley, of Harvard, who was railway expert for the Industrial Commission in 1900, appeared before the Senate committee on interstate commerce today in advocacy of the enactment of legislation that would cure existing evils in the railway business. He agreed with previous witnesses that the present law was ample to prevent secret rebates and discriminations, but he maintained that there were existing abuses systematically practiced by railroads that cannot now be reached. He admitted that American railway freight rates were low, but added that rates all over the country, and particularly on staple commodities, have been gradually increased in the last two or three years, until the total increase is now between ten and twenty-five per cent of the original price. These increases, he said, have been acccomplished so adroitly, by the railroads, that they were extremely hard to locate.

It is probable that a change will be made in the date of embarkation at Harve, France, of the remains of John Paul Jones. It had been the intention to embark the remains on July fourth, but a later date will probably be renamed. One reason for the change is that July 4th is a national holiday, on which day flags are not placed at half-mast.

In the case of Thompson vs. Dodd, the pilotage laws of Virginia were declared valid by the U. S. Supreme Court today.

Nan Patterson is now playing the role of nurse. Her father was taken critically ill last night with congestion of the lungs, but was reported much better today. "Papa stuck by me, and I'll stick by him," said Nan this morning. "It was through devotion to me that he has broken down, and now I'll try to repay his love and kindness by watching at his bedside."

Instead of going to church yesterday Nan Patterson took a long automobile ride with a New York friend.

Later the assailant was captured and taken to Wilmington to prevent a possible lynching.

Work of Train Wreckers.

An Atchison, Topeka and Santa Fe passenger train was ditched by train wreckers yesterday just east of Emporia, Kansas. Six passengers were injured and two will probably die. This is the fourth attempt in the last four months to wreck passenger trains in the same place. Previous attempts were made by piling ties on the track, and without serious results. Yesterday's wreck was caused by removing the spikes and fishplates of two rails on the inside of a curve. The locomotive passed over the loose rails safely, but a small car left the track and was dragged 100 yards along the embankment before the train was stopped. The next five cars, two express and baggage cars, a smoking car and two day coaches went into the ditch across the right of way fence. The end of the baggage car went up in the air high enough to ground the telegraph wires. Two Pullman cars remained on the track. The passengers were asleep when the wreck occurred, and became greatly excited; but they soon formed a wrecking crew and went to the relief of the men in the over-turned car. A window was broken and of seven men in the car six were injured.

In the presence of a notable gathering of Catholic Church dignitaries, the pallium, the official insignia of an archbishop, was bestowed yesterday on John Joseph Glennon, archbishop of the arch diocese of St. Louis. The ceremony took place in the old cathedral in St. Louis. Preceded by six quaintly attired pages, the ecclesiastical procession entered the cathedral by the main door, and passed down the center aisle to the sanctuary, to the right of which was the red throne for Cardinal Gibbons and directly opposite which was the purple, white, and gold throne occupied by Archbishop Glennon. Mass was celebrated by Archbishop Glennon, and immediately after the communion the pallium was bestowed by Cardinal Gibbons, Archbishop Glennon repeating the oath of office in Latin. Today's Telegraphic News

Movements of Russian Fleet.

Tokio, May 15.—It is definitely known now that the Russian fleet, after leaving Honkohe bay, temporarily, on May 8th, has returned to the bay since that time and is still anchored there.

Paris, May 15.—The French government has issued another denial of the allegations made by the Japanese to the effect that the Russian fleet has lingered in either Kamranh bay, or Honkohe bay. The government's declaration that Rojestvensky's entire fleet left on May 8, the day formerly mentioned, and has since remained away from French waters, is repeated.

Singapore, Straits Settlement, May 15.—The Jason, which has arrived here, reports that on May 12, she sighted twelve Russian men of war off Cape Varella. Cape Varella is a small promontory of Cochin-China, and is just north of Honkohe bay, which the Russian some time ago used while coaling and replenishing their ships.

Tokio, May 15.—The Japanese government has issued an order prohibiting the exportation of coal to Saigon, Cochin-China, as long as the Russian warships remain in Indo-China waters.

London, May 15.—The St. Petersburg correspondent of the Pall Mall Gazette wires his paper that the Russian admiralty believes that the divisions of the Baltic fleet commanded by Admiral Rojestvensky and Rear Admiral Nebogatoff have been in communication, but probably have not effected a junction. The failure to unite is possibly due to an accident on board of one of Nebogatoff's vessels. The correspondent says further: "I am assured that Admiral Rojestvensky, having all the stores which he may possibly require, cannot compromise France any further in the future by using her ports. The fourth Baltic squadron, despite all denials, is continuing its preparations to depart for the far East."

Japanese Massing Troops.

Gunchuling, Manchuria, May 15.—Reports have been made to the Russian field headquarters by Chinese that Field Marshal Oyama is directing large masses of troops toward Founchiakou. The concentration of a large army at this point is in progress, according to these reports, and pontoon bridges are being constructed across the river. Skirmishing has been kept up in the region of the Olouria mountain on the Russian left, but there has not been any serious fighting. On the right everything is quiet. Japanese reinforcements to the number of 80,000 have reached the front. The cavalry branch of the army especially has been materially strengthened. Prisoners who have been brought in declare that the Japanese army is ready to move when the signal is given. The heavy dust storm which occurred recently continued over three days, and did much damage. The soldiers suffered a great deal in the trenches and tents were badly damaged.

The Chicago Labor Troubles.

Chicago, May 15.—Before plunging the city into a greater strike, leaders on both sides of the present struggle are hesitating this morning. The reactionary force still may avert a spread of the trouble. The team owners, who now hold the key to the situation, have determined to give the unions one more chance to retreat from the position taken Saturday night, which was for spreading the strike. The teamsters' joint council will meet again tonight, and influences are said to be at work to end the teamsters' strike. Rumors that the executive board of the National Teamsters' Union will be in session are persistent. They are denied by the local officials, but strongly supported by the teamowners who claimed to have secret knowledge of this point. One of the hopeful signs is the action of the ice wagon teamsters who have voted to accept the wage conditions of last year.

In the hope of preventing a spread of the strike, Mayor Dunne, will today form another commission, not to aim for peace, but to try to induce teamsters and teamowners to keep the disturbance within limits.

Everything in the strike, it is now believed, hinges on the action of the teamowners' organization, the dominating association in the teaming business of Chicago.

Fifty Persons Injured by Explosion.

Vienna, May 15.—Fifty persons were injured, some of them so seriously that it is feared they will die, by an explosion of celluloid during a fire at the French Celluloid Company's plant on Schottenbaste street today. The chief of the fire brigade and several subordinate officers, as well as a number of firemen are among the injured. A fire had attracted a large crowd which pressed closely against the fire lines. When the explosion came there was a panic among the bystanders. In the sudden rush made away from the burning building many persons were run down and hurt.

Another Japanese Transport Sunk.

London, May 15.—A dispatch to the Reuter Telegram Company, from Chefoo, China, says that a second Japanese transport was sunk in the Gulf of Pechili, by a mine at the same time the transport Sheyutsumaru went down. The survivors, the message says were taken to Port Arthur. The report of the sinking of the Sheyutsumaru reached London last Saturday. It stated that the transport had gone down in near the Miaoto Islands on May 4. The vessels were loaded with provisions for the Japanese army, which were being taken to Nieuchwang.

Ambulances were sent from Richmond Hill and Jamaica, and a wrecking train was sent from Long Island City. The train left Flatbush avenue, Brooklyn, at 12:40 p. m. All race trains on that division are delayed.

Missing Boat Heard From.

Paris, May 15.—The Quand Meme, the Duc de Cases' motor boat, which disappeared in tow of the destroyer Arbalete during the storm which overtook the motor boat racers yesterday, has been heard from. An official announcement states that the Arbalete and Quand Meme have reached Cagliari, capital of the Island of Sardinia. Considerable anxiety was felt for the safety of the Quand Meme and the Arbalete. The disaster that overtook the other racers made it seem hardly possible for the Quand Meme to have escaped. Her owner, the Duc de Cases, was aboard the boat with a crew of six men and it was feared all had perished in the storm. The dispatch from Cagliari does not state whether the Duc arrived safely or not, but is it believed all those on board were saved. The Quand Meme is the last of the motor boats to be heard from. Out of the seven starters, five were sunk or abandoned. The F. I. A. T. was hoisted aboard a war ship soon after the storm started, and thus escaped.

Paris, May 15.—The destroyer Arbalete, which took the motor boat Quand Meme in tow when the storm struck the racers, yesterday, arrived at Cagliari, capital of the island of Sardinia, this morning. The captain telegraphs that the crew of the motor boat was saved, but that the boat itself went down at sea.

Quarrel Among Officials.

Madrid, May 15. A bitter quarrel between government officials is one of the results of the tercentennial celebration of Don Quixote. The officials involved are Congressman Castejon and Senator Cortezo, the minister of Public Instruction. As the result of the differences between the two it is said a duel will be fought. The quarrel arose over the question of the distribution of invitations to one of the entertainments to be held in the royal theatre in honor of Cervantes, author of Don Quixote.

Preparing to Celebrate Anniversary.

Rome, May 15.—Arrangements are being made to celebrate the second anniversary of the election of Cardinal Sarto as Pope, when he assumed the name of Piux X., by the erection of a magnificent bronze statue of the Pontiff in his native village of Reiz, in the diocese of Treviso, north of Venice. The unveiling will take place on August 4, which was the day on which Pius X. was elected to the papacy. Elaborate ceremonies will be held in connection with the unveiling of the statute.

Bids for Lease of Gas Works.

Philadelphia, May 15.—The finance committee of the councils today received bids for a 75 year lease of the gas works. Only one bid was received, E. B. Smith & Co., local bankers offered to take a lease from the United Gas Improvement in 1907, pay the latter $20,000,000 for improvements made, give the city 33⅓ per cent of net profits for the first ten years and 50 per cent of net profits for remaining 65 years. It is understood here that Smith & Co. represent Thomas W. Lawson.

New York Stock Market.

New York, May 15, 11 a. m.—During the first hour the demand for stocks absorbed all the supply from London, the west room traders and prices of several issues made significant gains. Among these were Northern Pacific, which moved up 3½ per cent. to 196, the highest price since the panic of May, 1901, and 21 points higher than the last sale on the curb. Union Pacific rose to 123⅜. St. Paul rose 1 per cent. and gains ranging from 1 to 2 per cent. were made in nearly all other stocks traded in. The gains made in the Northern Securities group are construed to indicate that the situation in the northwest has been permanently and peacefully adjusted. The tone of the market varied greatly. At the weaker fractions there has been very good buying. At the higher range it gets into control of room traders and brings in very little outside support.

Mr. Bryan in a Pulpit.

Mr. Bryan made his debut as a preacher yesterday, filling the pulpit of the Normal Methodist Church at Lincoln, Neb. A very large crowd was in attendance. He took the Sermon on the Mount as his theme, his text being: "Blessed are the pure in heart, for they shall see God." He declared his belief that religion consisted more in kindness to and consideration for fellow-men, more in charity for others and in personal purity than in dogma, ceremony, or creed. He deplored the tendency to higher criticism of the Scriptures and the rejections of parts of it because one could not understand. He declared that he found daily more mysteries in life than were bound up within the covers of the Bible. He believed the higher wisdom lay in accepting the good we understand and hope for, understanding later of that we do not. He insisted that no man could command real success in the world without he possessed an ideal, nor could he be of real value to the world as long as selfishness and low conceptions of his duty to himself and others dominated his life and conduct.

Letter to C. C. Carlin,

Alexandria, Va.

Dear Sir: We manange to get some fun out of paint. J H Hohlmeyer, Grove City, Pa, put-in Devoe. Along came a salesman of somebody else's paint before ours had got there. Salesman said ours was short-measure. Kohlmeyer weakened hung-fire and flopped; stopped ours and took his.

It was our turn now. We emptied our can into his and his into ours. The short-measure was his, not ours; and we kept our man.

And, ever since then, the paint-manufacturer gives full-measure; his paint is not pure, but his gallon contains four quarts.

Go by the name; and the name to go by is Devoe lead-and-zinc. Yours truly

No Foul Play.

The Kansas City police have completed their investigation of the visit of Herbert V. Croker, son of Richard Croker, formerly New York Tammany leader, to an opium resort and to North End saloons preceding his death on an Atchison, Topeka and Santa Fe train, near Newton, Kan., Friday morning, and unless the relatives of young Croker request it, no further action on the case will be taken by the Kansas City police.

Charles Wilson, negro porter at the Coates Hotel, who accompanied Croker to the opium den and later put him on a train, was released from jail yesterday. Ah Lee and Ghee Kee, proprietors of the opium resort, are held, and they will be prosecuted in Police Court for conducting an illegal business.

Richard Croker passed through Kansas City yesterday on the way to Newton to get the body of his brother, which, it is believed, will be taken to New York at once. Two detectives met Richard Croker at the station and told him the particulars of his brother's visit to Kansas City. Croker asked if it could be possible that his brother had been murdered and when told that the result of the investigation did not justify that belief, he intimated that he would take the body to New York at once and that no further investigation of the case would be requested.

Croker said that his brother left New York with $100 and that his family did not know that he intended to stop at Kansas City. A man said to be a brother of Lewis Nixon was with Croker.

Croker's companion said that Herbert Croker was a secretive man and did not take his parents or brothers into his confidence, and that it was not surprising that he did not give out his identity in Kansas City. He said that Herbert Croker had frequently left home without telling his family of his intended destination, and that he never exploited his identity anywhere.

It is now generally believed that the unfortunate young man drank liquor after using opium, which caused his death.

Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Anniversary Celebration.

The tenth anniversary of Alexandria Division, No. 1, Ancient Order of Hibernians, took place last night. The affair was well conceived, the programme was rendered in a creditable manner, and all present experienced a delightful evening. The following was the order of exercises:

Address, M. R. O'Sullivan; address, P. J. Halaltigan, Editor National Hibernian; instrumental music, Miss Devitt; address, Prof. P. J. Healy, Professor Theology Catholic University; song, Mrs. Jacob Brill; address, P. J. Morgan, District President A. O. H; instrumental music, Miss Devitt; address, Prof. J. C. Monoghan, Department Commerce and Labor. Rev. H. J. Cutler was to have delivered an address, but owing to the lateness of the hour this feature was omitted, and he dismissed the company.

The following members formed the committee of arrangements: J. P. Laphen, M. J. MacFarland, T. D. Downey, John Henratty, Rev. H. J. Cutler, J. T. Sweeney, F. T. Quinn, W. H. Sweeney, John McKenna and Jas. Roche.

The following are the present officers of the division: M. R. O'Sullivan, President; J. P. Laphen, Vice-President; J. Lyons Dolan, Recording Secretary; F. T. Quinn, Financial Secretary; W. H. Sweeney, Treasurer; Archie Moore, Sentinel; M. Downey, Sergeant-at-arms; Rev. H. J. Cutler, Chaplain.

Double-Tracking Road.

The laying of the rails for the new double track of the Washington, Alexandria and Mount Vernon Railway, which is to be built from this city to Four Mile Run, was started a day or two ago. About a half mile of track is in place from the siding at St. Asaph to within a hundred yards of the station at Del Ray. By the middle of this week, the engineers calculate the new track can be completed to the siding at Lloyds station, and this part of the new track will then be put in service. The grading of the roadbed is completed from Spring Park to St. Asaph, and the ties and rails are on the ground waiting to be placed in position and fastened down. From St. Asaph northward to the beginning of the embankment across Four Mile Run, the contractors have a large force of men at work cutting down embankments and filling in hollows to make a level track bed between these points.

Work has also been started on the new roadbed from the Spring Park siding toward this city. During the past week new motor car No. 20 was put in service.

Police Court.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

John Lewis, colored, arrested by William Candler charged with disorderly conduct, was fined $2.50.

Frank Marvins, arrested by Officer Knight charged with stealing a saddle and bridle from Benj. Cogswell, was fined $10.

Frank Butler, colored, arrested by Officer Roberts charged with disorderly conduct and fighting, forfeited $5 collateral by failing to appear.

William Smith, arrested by Officers Ferguson and Arrington charged with assaulting a child of George R. Nalls, was dismissed.

Clarence Grady, colored, charged with assaulting Randolph Jones, was dismissed.

A man charged with maintaining a nuisance on his premises, was dismissed.

Black Patti Troubadours.

"Looney Dreamland," as presented last Saturday night at the Opera House by the Black Patti Troubadours, was excellent in every detail. Each number on the programme was fine, and worth the price of admission. There was plenty of good chorus singing, and dancing of the highest order. Sissieretta Jones (Black Patti) rendered several operatic airs in a wonderful manner. Her singing of Suwanee River was applauded to the echo. A notable feature of the performance was Harry Kraton the man with the educated hoofs. The singing of Francis Morris also deserves special mention. The company is under, the management of Mr. William Allen, formerly of this city, and at one time employed as a conductor on the W., A. & Mt. V. Railway.

Work of Thieves.

Despoiling of river yachts, both sail and steam, has of late become the practice of petty thieves along the port front. Robberies of awnings, screens to windows and other light trimmings for comfort and ornament, valued by those who engage in aquatic sports, have become frequent. The plunder is sold by the thieves for a mere pittance of its cost. Lately a well-known steam yacht of this locality was partially dismantled of such paraphernalia and the owner has employed detectives for the good of all interested, hoping to apprehend the thieves and have them prosecuted to the full extent of the law.

The Primary.

The democratic primary to nominate candidates for city and State offices will be held on the 29th inst—just two weeks from today. The offices to be filled are: State—Commonwealth's Attorney, Clerk of Courts, City Treasurer, Commissioner of Revenue, Magistrates, and Constables for each ward. City—Auditor, Corporation Attorney, Tax Collector and Clerk of Gas. The names of all candidates for the democratic nomination for city offices must be filed with the secretary of the city democratic committee before noon of Wednesday, May 17.

Prizes Awarded.

The annual contest for the Wallace prizes for ex-tempore speaking was held Friday evening at the Episcopal Theological Seminary, near this city. Wm. Crosby Bell, B. A., won the first prize and Wythe Leigh Kinsolving won the second. The prizes consist of the interest on a fund of $2,000, two-thirds going to the winner and one-third to the second.

River Notes.

Mr. John Callahan, general manager of the Norfolk and Washington steamboat line, was in this city Saturday evening to arrange for the rebuilding of the ferry slip and house here in preparation for the resumption of the ferry service. The work of removing the piles preparatory to the construction of the new slip will be begun tomorrow when the piledriver will be brought here. Architect Holtzclaw, of Washington, is engaged in the preparation of the plans for the new ferry house at this place.

All traces of the old ferry house of the Alexandria and Washington ferry line, at the foot of M street southwest Washington, have been removed, the ground cleaned up and the foundation timbers for the handsome ferry building which is to be erected by the Norfolk and Washington Steamboat Company have been placed in position, and the work of preparation for the erection of the new building is going ahead rapidly.

The steamer Newport News, which arrived up this morning from Norfolk, encountered severe thunder storms last night in the bay and river.

The schooner William T. Hood is at the shipyard where she will load railroad ties for a northern port.

William Skinner & Sons, of Baltimore, docked the steamer Potomac, of the Maryland, Virginia and Delaware Railway Company. The steamer is to have her bottom cleaned and painted.

Except for the hauling of seine at Mosley's fishing shore, operated by Herron & Lindsay, a short distance below Bryan's Point, and at one or two of the smaller shores, the fishing season in the Potomac is at an end.

Mr. A. Dean has sent his piledriver to lower Cedar Point where he will construct a wharf and a large scow.

Scare on an Ark.

The storm which broke over this city and neighborhood yesterday evening caused considerable consternation upon the large ark anchored on the flats a short distance north of Fort Foote. A tugboat with a number of patrons was in the act of coming alongside the floating resort when the wind caused the tug and ark to collide with force. There was a blinding flash of lightning synchronous with the collision, and the jingle of broken bottles and glasses, which had been caused by the concussion incident to the collision, was supposed by all on the ark to have been the result of a stroke of lightning. There was a disposition on the part of some of the company to resolve themselves into a prayer meeting or Bible class, and cards dominoes, &c., lay on the tables unused. Subsequently several Alexandrians embarked in a small boat for home, but their frail craft was swamped a few yards from the shipyard. All finally reached terra firma, one of the party, however, minus a pair of shoes.

Death of Mr. Strong.

Mr. William E. Strong of New York, died in that city yesterday after a short illness of pneumonia. In 1872 he was married to Miss Alice Corbin Smith, daughter of the late Francis Lee and Sarah Gosnell Smith of this city. Mr. Strong was long engaged in the banking business in which he accumulated a large portion. He was a man of simple tastes, sterling qualities and high character. Recently he made a handsome donation to the trustees of the Presbyterian Cemetery near this city. He leaves a widow and two daughters. One daughter is the wife of Captain Morton Gage, of the British army, and the other is Miss Alice Strong. Mr. Strong was a member of the Union, the Knickerbocker and the Riding clubs, and was once a governor of the Union Club in New York.

The New Railway Work.

The fill constructed by the Washington Southern Railway Company across Gravelly run, south of Alexander Island, on the Virginia side of the Potomac, has been completed. The embankment is being extended across the island toward the new railway bridge. Within the next month this portion will also be completed. It is stated that after the completion of the railway work the low ground from the new embankment to the Alexandria-Washington turnpike will be filled in and raised above tide water level. The Washington-Southern Railway has put in the iron frame work over the Spring Park road and the derrick has been removed to the abutment over the Shuter's Hill road where a similar structure is to be erected.

Minstrels Tomorrow Night.

The rehearsals for the entertainment to be given at the Opera House on Tuesday and Wednesday nights for the benefit of the Relief and Reliance fire companies show the marked ability of those who will take part. There will be a large company, plenty of good singing, and an excellent olio. A feature of the performance will be the monologue of Mr. Harry Fleischmann. Another feature of the minstrels will be the rendition of the Relief and Reliance fire song, composed by Mr. Tom Moore, the favorite southern baritone. Mr. George H. O'Connor, well known in this city, will also take part.

King Roughbeard.

This opera should be of interest to the older people of Alexandria, as well as the children, for the reason that it is the work of two of our townswomen, Miss Melissa Hill having written the libretto and Mrs. Oscar F. Carter set the same to music. The object should also appeal to the public. The performance is for the benefit of the Free Kindergarden, wherein is begun training, the results of which will be seen in the next generation. The plot is cleverly drawn and the music is bright and catchy.

Store Robbed.

C. B. Leary's store at Cherry Hill, at Prince William county, a short distance south of this city, was robbed Saturday night of a quantity of clothing, shoes, tobacco, &c. The Prince William county authorities yesterday arrested a negro named Charles Jones on suspicion, and took him to the county jail at Manassas by way of this city. A white man whose home is in this city is suspected of having been with Jones, and a warrant has been issued for his arrest also.

Mysterious Death.

The body of an unknown white man was found at Cherry Hill, on the Washton-Southern Railway, last Saturday night. There was a hole in the man's head, but it could not be ascertained whether he had been struck by a train or had been murdered and placed where found. A bundle lay alongside the body.

Mrs. J. D. Gatewood and her daughter, Miss Hildreth Gatewood, have returned from a delightful two weeks' stay at Virginia Beach.

Copious Rains.

This city and neighborhood were visited yesterday afternoon and last night by a succession of refreshing rains accompanied by thunder and lightning. The atmosphere had been oppressive during the morning and early in the afternoon it became apparent that there was to be a break in the drought which had for several weeks caused anxiety to truckers in this neighborhood. Between 3 and 4 o'clock a heavy and prolonged shower greatly refreshed the parched earth. About half-past 7 o'clock another followed in its wake, with bright lightning and heavy thunder. At 9 o'clock the celestial batteries reopened and ushered in the third heavy downpour. The storm was quite general throughout the east, being severe in Maryland, Virginia, Pennsylvania, and the Ohio Valley.

A Week of Carnival.

As heretofore stated the officers of the Alexandria Light Infantry have secured the Jones and Adams Carnival Company which will furnish the shows and free attractions on the old fair grounds. Special features will be provided for each day and the company will give several exhibition drills during the week.

Bass Out of Season.

According to section 2108, code of 1887, it is unlawful to kill or capture any river bass (commonly called black bass or black perch), or pond bass (commonly called southern chub), between the 15th day of May and the 1st day of July of each year, or to shoot or spear the same at any time.

LOCAL BREVITIES.

Alexandria Tent, No. 2, K. O. T. M., meets tonight.

Some hail fell in Alexandria county yesterday evening.

During the storm yesterday evening a tree on Henry street, between Cameron and Queen, was blown down.

John Davis, who was recently adjudged of unsound mind, was sent to the hospital in Staunton on Saturday.

The streams near this city were considerably swollen yesterday evening and last night by the heavy rainfall.

The mercury at noon stood at 82° but the excessive humidity in the atmosphere made the temperature feel much warmer.

In the Corporation Court today final naturalization papers were granted to Mrs. Selma Beyers, a native of Sweden.

A youth named Dalbert Williams broke his ankle yesterday while playing baseball in the southeasterly part of the city.

The lighting of yesterday evening did some damage to the electric railway wires and caused some delay in the running of trains.

Mudd Brothers house at Waterloo, Alexandria county, was raided Saturday night by a deputy sheriff and some liquor seized.

Mr. William E. Hamersley has removed to his new and handsome house on the southwest corner of Cameron and Henry streets.

James McCann was arrested today by Officers Roberts and Henderson for assaulting and beating a white man on Cameron street.

Mr. Malachi Thompson, who a quarter of a century ago kept a tinners' store on lower King street, died last night at Herndon, aged 73 years.

Several box cars were derailed at Franconia, on the Washington Southern Railway, this morning, which impeded the running of trains for a short time.

During the heavy rains of yesterday evening and last night sewers in the southeastern part of the city became choked and water went into some cellars.

The game of baseball played on the High School grounds Saturday evening between the Woodberry Forest and the High School teams, was won by the former by a score of 6 to 3.

The fall of a live wire on Royal street, between King and Prince street, last night caused apprehension among people in that neighborhood until it was replaced by the railway men.

An infant son of Mrs. Elizabeth and the late James B. Martin died at the Alexandria Hospital Saturday night. An operation for appendicitis had previously been performed on the child.

There will be no emancipation celebration in this city today, as had been planned, but there will be literary society exercises and speeches by several colored men. A baseball game is one of the incidents scheduled for the day.

The cause of a disagreeable smell in the northwestern section of the city was ascertained this morning by Lieutenant Smith. It emanated from a furnace in the neighborhood into which certain refuse had been cast. Officer Young summoned the superintendent before the Police Court when the matter was explained and measures taken to prevent a recurrence.

The sultry weather which prevailed during the greater part of yesterday and the heavy rain in the afternoon formed uncomfortable conditions, and the number of people on the streets was not as large as on preceding Sundays. The churches had average congregations in the morning, but at night, in consequence of the rain and thunder and lightning, but few pews were occupied.

Royal Bridal Gown of Silver.

The wedding dress of Duchess Cecilia of Mecklenburg-Schwerin, who is to be married June 6 to the German Crown Prince Frederick William, will be an international composition. The Grand Duchess Anastasia, her mother, bought the material, so-called cloth-of-silver, in Russia for $2,400. It has been embroidered with wonderful garlands of silver by German needlewomen and has been made by a famous dressmaker in Paris. The court train is after the fashion of the one worn by the Empress Josephine at the time of her coronation. The Crown Prince objected to puffed sleeves, and they accordingly have been abbreviated. The Sultan of Turkey is sending the Crown Prince and Duchess Cecilia a number of splendid rugs and porcelains.

Heroism Rewarded.

Years ago a vessel was wrecked off the northwest coast of Ireland. Crowds gathered on the beach to witness the scene. A few brave men came forward and put out to the sinking vessel. As they came back to the shore with their burden of human lives the watchers cried: "Have you got them all? Are they all saved?" "Yes," was the answer, "all but one. If we had stayed for him all would have been lost." Instantly a stalwart fellow stepped out from the crowd and called for volunteers. The mother begged the young man not to go, saying: "Your father was lost at sea; your brother William sailed away, and we have never heard from him. If you go my all will be lost." Embracing her, he said, "I must go." In a short time he was seen returning. "Have you got your man?" cried the watchers. "Yes," was the reply, "and tell mother it is brother William."

The "Undertaker's Friend."

Both men and women when they decide to "wrap up" do so by increasing the number of layers of clothing in front over those on the back of the body. It is a great mistake. The main "telephone exchange" of the nerves of the body lies in the spinal cord, situated in the spinal canal, and this exchange has immediate, complete and instantaneous connection with the skin of the whole of the back of the trunk and is much more sensitive than that of the skin in front.

It behooves us, then, to see that the back is covered, if not more than, at least as much as, the front, between the shoulders. In men the thin back of the waistcoat is "the undertaker's best friend." In women it is the space between the top of the corset and the center of the neck, more especially in that type of garment popularly known as the "pneumonia blouse." — London Mail.

The Pulpit Buffoon.

Sir William Dugdale applied the name "pulpit buffoon" to Hugh Peters (1598-1660), the joke loving Puritan clergyman, whose pulpit peculiarities made him a notable figure during the English civil war, when he held the post of chaplain to the parliamentary army. Peters was a born jester, and the pulpit set no bar to his broad humor and pungent witticisms—not always in the best taste, as, for example, when turning the hourglass while preaching a long sermon he said, "Now, my friends, let us have another glass." His pulpit appeals were very effective in winning recruits to the parliamentary army, and when a town was to be taken by assault the storming parties were first stimulated to the task by a rousing sermon from their chaplain.

The Simplon Pass.

The Simplon pass always has been the great highway of travel from Switzerland into Italy. It was used by Caesar and his legions as far back as 50 B. C., and, although Napoleon happened to use the St. Bernard pass, he recognized the superior importance of the Simplon and ordered a military road to be built over it to serve in future campaigns. It was begun in 1800, but before it was completed, in 1806, the fortunes of the battlefield led the emperor elsewhere, so he never saw it. While thus constructed for war, no army ever crossed it. Instead of furnishing a route for cannons, it became a peaceful medium for international commerce.—St. Louis Republic.

The Original Lovers' Leap.

Sappho's Leap was the name given to a white cliff or promontory anciently called Leucadia, now Cape Ducato, at the southern extremity of Santa Maura, one of the Ionian islands. It was so called because Sappho, the poetess, is reported to have thrown herself from this height into the sea. A criminal, with birds attached to him to break his fall, was thrown from the cliff at the annual festival of Apollo, and if he reached the water unhurt he was picked up by boats placed there for that purpose. This is the rock from which, according to the story, lovers throw themselves in order to be free from the pangs of love.

Man's Reasonableness

is often as great as women's. But Thos. S. Austin, Mgr. of the "Republican," of Leavenworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for feniale trouble, "Instead," he says, "we concluded to try Electric Bitters. My wife was then so sick she could hardly leave her bed, and five [5] physicians had failed to relieve her. After taking Electric Bitters she was perfectly cured and can now perform all her household duties." Guaranteed by E. S. Leadbeater & Sons, druggists, price 50c.

Taking Desperate Chances.

It is true that many contract colds and recover from them without taking any precaution or treatment, and a knowledge of this fact leads others to take their chances instead of giving their colds the needed attention. It should be borne in mind that every cold weakens the lungs, lowers the vitality, makes the system less able to withstand each succeeding cold and paves the way for more serious diseases. Can you afford to take such desperate chances when Chamberlain's Cough Remedy, famous for its cure of colds, can be had for a trifle? For sale by Gibson & Timman and W. F. Creighton & Co.

FOR OVER SIXTY YEARS

An Old and Well-Tried Remedy.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

There Is a Difference.

The difference between Kennedy's Laxative Honey and Tar and all other Cough Syrup is that it moves the bowels, thus expelling a cold from the system. This relaxes the nervetissues and by its healing effect on the throat and lungs the cough is relieved—cured entirely. Kennedy's is the original Laxative Honey and Tar and contains no opiates. Good alike for young or old. Tastes good. Sold by W. F. Creighton, 401 King street, and corner Queen and Patrick street.
